HUNGRY PLANET® PLANT-BASED MEATS NOW AVAILABLE FOR FREE HOME DELIVERY

ST. LOUIS, Mo. – DATE –The Hungry Planet® line of plant-based proteins is now available for free home delivery through its website, shop.hungryplanetfoods.com. The chef-crafted meats are easy for consumers to swap in as healthier alternatives for traditional beef, chicken, and sausage in any cuisine, with any flavor, without compromise.

All Hungry Planet® products are 100% plant-based (vegan), non-GMO, and free of cholesterol and saturated fats. They are created by chefs to appeal to omnivores, carnivores, flexitarians, vegetarians, and vegans alike. The ground beef, Italian sausage and chorizo are gluten-free. As a company, Hungry Planet® is committed to sustainability and healing the planet, choosing healthful ingredients that use fewer resources from farm to table.

Hungry Planet®'s wide selection of meats include: Ground Chicken, Ground Beef, Ground Italian Sausage, Ground Chorizo, Ground Pork, Beef Patties, Southwest Chipotle Chicken Patties and Crab Cakes.

Hungry Planet® plant-based proteins are available in thousands of venues across the U.S., Canada and Asia Pacific, including fine dining, fast casual, and family dining restaurants, hospitals, retail, deli counters, grocery stores, universities, and public schools. Our retail line is available at a growing number of grocery stores across the country, and online through our website and other partner websites.

About Hungry Planet®

At Hungry Planet®, our mission is to match traditional meat textures and tastes with healthy plant-based ingredients, and to make them accessible to everyone. We make chef-crafted plant-based meats that are a simple and delicious switch from conventional meats. Developed to delight the demanding tastes of meat lovers in the heart of the Midwest, Hungry Planet's chef-crafted 100% plant-based meats use fewer resources from planet to production and are better for you and our environment. Our meats also offer superior nutrition, packed with protein and fiber, with fewer calories and less fat (no saturated) than conventional meat and other plant-based meat options.
